Great Images Photography

Twelve years of School, they've made it through, maybe college maybe not, doesn't matter, what matters is their independence is here and they have waited for this their whole lives and now they are ready to embrace it. But right now this is a very special time for them, one they will look back on for the rest of their lives and remember when they hung out with their friends and stood up to say I am! Why not capture this time for them that they can look back on and remember in the great photo's that really describe who they are. It's our mission to help you capture this time for them and we promise to you we will put our hearts and souls into it. Choosing Great Images is choosing memories for a lifetime!

Why Choose Great Images?

Our Mission Statement:

“To create professional custom photographs unique to our clients personality and interests that truly represents who they are and recording a time in their lives to be shared for generations to come!”

- Great Images is a local “home town” business with the senior in mind.*
- Owners have lived in the community for 30 years and are active in the local chamber of commerce.*
- Great Images offer more proofs to choose from than photographers contracted with local schools.*
- Seniors choose their dates and locations.*
- Senior sessions are one on one (Senior and Photographer) unlike some other photographers who shoot several seniors at the same locations at the same time.*
- We have lower prices than most of our competitors.*
- Great Images uses both indoor (studio) and outdoor natural scenery.*

When do I pay my session fee?

Session fees can be paid over the phone or in person when you book your session, by credit card, debit card or by check.

When should I get my Senior Portraits taken?

Ideally, from the minute you complete you junior year, you should begin planning for your Senior Portraits. Why? Several reasons!

- 1. Time flies!!!*
- 2. Once your Senior school year starts, you will be busy with school activities and possibly a job..*
- 3. Summer and fall are the best seasons for classy outdoor portraits. If you're thinking of waiting until spring you will be sadly disappointed when it's the end of March and the grass is brown, the trees are bare, and snow is still on the ground. Springtime is also unpredictable and it's too late to reschedule if it's raining the day of you appointment.*
- 4. We have more time to be creative with your portraits. When you call us in a rush, then we are in a rush and the overall experience will suffer for it.*

How long will my senior session take?

Please plan on at least 30 minutes per outfit. This is a once in a lifetime event! We take our senior sessions seriously, and hopefully it shows! Come refreshed and please arrive on time!

What should I wear?

Clothing is important! It can make or break an image. Anything that competes with your face is going to make a difference in your final portrait. We won't send you home if you show up in stripes, but we highly suggest you follow these tips to get the most from your portrait experience.

Flattering portraits are better created with:

- *Solid color clothing.*
- *Long sleeves.*
- *Darker clothing is slimming. Medium to dark colors work best.*
- *Short sleeves will add weight, so wear long sleeves!*

Eye glasses cause glare, they reflect. We will do our best to prevent this during your session but we can't guarantee to be 100% successful in preventing reflections. We understand if your glasses are a part of who you are, but to get the best portraits possible, we suggest you either remove your lenses for your portrait session, or get a spare set of frames without lenses. We can also digitally remove the glare from your glasses, but it's time consuming and may incur extra charges.

Bring anything (clothing, ex. Letterman jackets, logo t-shirts ect, props ex. Snowboards, instruments, basketballs ect.) that defines your personality. You can also arrange portraits with your pet, your horse, car or motorcycle.

Should I bring a parent?

Yes! Bring an adult and warn them it might take a while. We do ask that parents allow us to stay in control as we know what we are aiming for and we're pretty good at what we do. To parents: Sit back, enjoy the experience and trust our judgment. That's what you're paying us for!

How do I see my proofs?

Our studio is in-house previewing only, which lets you see the images on a large screen calibrated to our specifications.

How long before I can see my previews?

Depending on the season, it typically takes two weeks to edit and finalize your images for previewing.

When should I order?

With our in-studio consultation, plan on ordering during that time!

How long does it take to get my portraits?

Again, that depends on the time of year. We usually require two weeks for your order to be finalized, printed and sent back to us. We will call you the day they arrive and are available for pick up.

Do you do your own printing?

No. We leave that to the professionals. Every order we receive is sent to a professional lab to be printed. An image is only as good as the printed version, and we take pride in giving our clients only perfectly printed portraits.

How long do you keep my proofs?

We will have your original images for up to 5 years.
